WHISTLING WOODS INTERNATIONAL × ADSTMAGNIFY

CASE STUDY

BUILDING A STUDENT ACQUISITION FUNNEL THAT DROVE 378 ADMISSIONS

A major performance marketing strategy powered by Meta, supported by Google Ads, PaperAds, CollegeDunia and other acquisition channels.

THE CHALLENGE

HOW DO YOU CONSISTENTLY ACQUIRE THE RIGHT STUDENTS?

Whistling Woods International operates in a highly competitive creative education market.

The challenge was not simply to generate visibility.

The objective was to create a **Student Acquisition Funnel** capable of taking prospective students from:

Awareness

→ **Interest**

→ **Enquiry**

→ **Consideration**

→ **Admission**

The strategy needed to reach students interested in:

Animation | VFX | Filmmaking | Creative Careers | Fashion

and move them towards an actual admission decision.

THE OBJECTIVE

INCREASE ADMISSIONS THROUGH ONLINE ADVERTISING

The core objective was to build a scalable acquisition system that could generate a consistent flow of prospective students and support the admissions process.

The focus was:

Right Audience

Reach relevant prospective students.

Right Message

Communicate the right course and career proposition.

Right Channel

Reach students across the platforms where they were actively discovering and evaluating education options.

Right Conversion

Turn attention into enquiries and enquiries into admissions.

OUR APPROACH

A STUDENT ACQUISITION FUNNEL

Rather than treating advertising as a collection of individual campaigns, we built the strategy around the complete student journey.

01. AWARENESS

Create visibility among relevant students.

02. ENGAGEMENT

Capture attention through compelling creative communication.

03. CONSIDERATION

Build interest through relevant course messaging, content and remarketing.

04. LEAD GENERATION

Capture prospective student enquiries.

05. FOLLOW UP

Move interested prospects into the admissions process.

06. ADMISSION

Convert prospects into enrolled students.

THE CORE ENGINE

MAJOR PERFORMANCE MARKETING

The primary acquisition engine was performance marketing.

META ADS

Meta played a **major role in the performance marketing strategy**, particularly in audience acquisition and lead generation.

The campaigns focused on:

- Precision audience targeting
- Creative testing
- Focused campaigns
- Lead generation
- Remarketing
- Conversion tracking
- Continuous optimization

Meta allowed us to reach prospective students based on relevant interests and behaviours while continuously optimizing campaign performance.

GOOGLE ADS

Google Ads complemented Meta by capturing **active search intent**.

Keyword research and optimization helped reach prospects who were already searching for relevant creative education opportunities.

SUPPORTING ACQUISITION CHANNELS

Performance marketing formed the core of the acquisition strategy, while additional channels supported the overall student acquisition effort.

PAPERADS

PaperAds was used as an additional student acquisition channel, helping expand reach beyond the core performance marketing campaigns.

COLLEGEDUNIA

CollegeDunia provided another touchpoint for students actively researching colleges and educational opportunities.

OTHER SUPPORTING ACTIVITIES

Additional acquisition initiatives contributed to creating a broader student acquisition ecosystem.

The important distinction was:

Performance marketing was the major acquisition engine, while supporting channels expanded the overall reach of the student acquisition funnel.

THE PERFORMANCE MARKETING STRATEGY

PRECISION TARGETING

We identified and segmented relevant audiences across Meta and Google to improve the quality and relevance of the traffic entering the funnel.

COMPELLING AD CREATIVES

Creative communication was designed specifically for an audience interested in entertainment, filmmaking, animation, VFX and creative careers.

KEYWORD OPTIMIZATION

Google Ads campaigns were optimized around relevant search behaviour and industry trends.

FOCUSED CAMPAIGNS

Campaigns were structured around specific audiences and objectives rather than relying on one broad campaign.

A/B TESTING

Different ad combinations were tested to identify stronger performing creatives and campaign setups.

LANDING PAGE OPTIMIZATION

Landing pages were optimized to help turn advertising traffic into conversations and enquiries.

CONVERSION TRACKING

Conversion tracking enabled campaign performance to be measured and strategies refined based on data.

SMART BUDGETING

Budgets were strategically allocated across the acquisition ecosystem to maximize campaign impact.

THE STUDENT ACQUISITION FUNNEL

META + GOOGLE + SUPPORTING CHANNELS

↓

AWARENESS

Reach prospective students.

↓

ENGAGEMENT

Create interest.

↓

REMARKETING

Reconnect with interested audiences.

LEAD GENERATION

Capture student enquiries.

FOLLOW UP

Move prospects through the admissions journey.

ADMISSIONS

Convert prospects into students.

THE RESULTS

The combined acquisition strategy delivered significant business outcomes:

378

ADMISSIONS

₹25 LAKH

Reported ticket size

2,000+

LEADS GENERATED

\$11 MILLION

REPORTED REVENUE

4,000+

ORGANIC FOLLOWERS

25%

SOCIAL MEDIA ENGAGEMENT BOOST

THE BUSINESS IMPACT

The campaign created impact at multiple levels.

LEAD GENERATION

2,000+ leads entered the acquisition ecosystem.

ADMISSIONS

378 admissions were reported as the key business outcome.

REVENUE

The case study reported **\$11 million in revenue**.

BRAND GROWTH

The institution also gained **4,000+ organic followers**.

ENGAGEMENT

Social media engagement increased by **25%**.

WHAT MADE THE STRATEGY WORK

PERFORMANCE MARKETING AT THE CORE

Meta and Google formed the primary performance marketing engine.

MULTI CHANNEL SUPPORT

PaperAds, CollegeDunia and other initiatives expanded the acquisition ecosystem.

FUNNEL THINKING

Every activity had a role within the student journey.

CONTINUOUS OPTIMIZATION

A/B testing, conversion tracking and KPI monitoring allowed the strategy to evolve based on performance.

ADMISSION FOCUS

The ultimate objective remained admissions, not simply clicks, impressions or engagement.

THE NUMBERS THAT MATTER

Metric		Result	
Admissions		378	
Ticket Size Mentioned		₹25 Lakhs	

Leads Generated	2,000+
Reported Revenue	\$11 Million
Organic Followers	4,000+
Social Media Engagement Boost	25%
Core Acquisition	Performance Marketing
Major Platform	Meta
Supporting Platforms	Google Ads, PaperAds, CollegeDunia
Strategy	Student Acquisition Funnel

THE BIGGER STORY

The real success of the campaign was not one platform.

It was the **Student Acquisition Funnel**.

Performance Marketing

created the core acquisition engine.

Meta

generated significant audience reach and lead generation.

Google

captured active search intent.

PaperAds & CollegeDunia

provided additional acquisition touchpoints.

Remarketing

brought interested prospects back into the journey.

Conversion & Follow Up

moved prospects closer to admission.

And the final business outcome was:

378 ADMISSIONS

THE FINAL RESULT

2,000+

Leads Generated

378

Admissions

\$11 Million

Reported Revenue

4,000+

Organic Followers

25%

Social Media Engagement Boost

IN CONCLUSION

FROM PERFORMANCE MARKETING TO A STUDENT ACQUISITION ENGINE

For Whistling Woods International, Adsmagnify built a **Student Acquisition Funnel** with **major performance marketing at its core**.

Meta and Google formed the primary performance marketing engine, while **PaperAds**, **CollegeDunia** and **other supporting acquisition activities** expanded the overall reach.

The strategy brought together:

Audience Targeting

→ **Creative**

→ **Performance Marketing**

→ **Lead Generation**

→ **Remarketing**

→ **Follow Up**

→ **Admissions**

The reported outcome:

378 Admissions

2,000+ Leads

\$11 Million Revenue

4,000+ Organic Followers

25% Engagement Boost

THE STRATEGY WAS NOT ABOUT RUNNING MORE ADS.

**IT WAS ABOUT BUILDING A STUDENT ACQUISITION FUNNEL THAT
CONNECTED MARKETING ACTIVITY TO ADMISSIONS.**

**WHISTLING WOODS INTERNATIONAL ×
ADSMAGNIFY**

**PERFORMANCE MARKETING. STUDENT ACQUISITION.
MEASURABLE BUSINESS IMPACT.**
